

How to use the industrial 2 energy storage upgrade

How do I use the energy storage upgrade?

The Energy Storage Upgrade is often used in combination with the Overclocker Upgrade, due to the fact that the Overclocker Upgrade makes the machine consume more energy. To use this component, open up the GUI of your IndustrialCraft 2 machine of choice (Macerator, Compressor, etc.) and place the upgrade in one of the four righthand slots.

What is IC2 energy storage upgrade?

The Energy Storage Upgrade is an upgrade for IC2 machines used to increase the amount of internal energy it can store. Each upgrade increases the machine's storage by 10,000 EU. The Energy Storage Upgrade is often used in combination with the Overclocker Upgrade, due to the fact that the Overclocker Upgrade makes the machine consume more energy.

How do I upgrade to IndustrialCraft 2?

To use this component, open up the GUI of your IndustrialCraft 2 machine of choice (Macerator, Compressor, etc.) and place the upgrade in one of the four righthand slots. Community content is available under CC BY-NC-SA unless otherwise noted.

What is a transformer upgrade in IndustrialCraft 2?

Transformer Upgrades are also useful with Energy Storage Upgrades, as they allow the machine to be able to take more EU/t without exploding, meaning it can fill the larger buffer faster. What is IndustrialCraft 2? · A Note on IC2 Affecting Mods · New Resources · Power Community content is available under CC BY-NC-SA unless otherwise noted.

How do I increase energy input tier?

Tooltip: Increase energy input tier by 1 The Transformer Upgrade effectively increases the power tier of the machine it's installed in, so that machines that could only handle 32 EU/t can now handle 128 EU/t with one upgrade, 512 EU/t with two, and so on.

What is an IC2 upgrade?

An upgrade is an item that can be placed inside an IC machine (usually at the right-hand side of the GUI, but not always) to enhance its capabilities. Not all machines can accept all upgrades; mousing over the blue and white 'i' in the upper-left corner of any machine GUI should tell you its compatibility.
