

Will Bolivia produce lithium batteries by 2025?

The Bolivian government has chosen a Chinese consortium led by battery giant Contemporary Amperex Technology to invest upward of \$1 billion to develop untapped lithium deposits, with the ambitious goal of producing lithium batteries in the country by 2025. Bolivia has the largest lithium reserves in the world but little local means to develop them.

Who are the key players in the industrial battery market?

The industrial battery market is fragmented. The key players in this market (in no particular order) include EnerSys, Exide Industries Limited, GS Yuasa Corporation, East Penn Manufacturing Company Inc., and Amara Raja Batteries Ltd., among others. Need More Details on Market Players and Competitors?

What is the market size of industrial batteries in revenue (USD)?

The Report Offers the Market Size and Forecasts for Industrial Batteries in Revenue (USD) for all the Above Segments. The Industrial Battery Market size is estimated at USD 37.82 billion in 2024, and is expected to reach USD 82.23 billion by 2029, growing at a CAGR of 16.80% during the forecast period (2024-2029).

How is the industrial battery market segmented?

The industrial battery market is segmented by technology, application, end-user, and geography. By technology, the market is segmented into lithium-ion battery, lead-acid battery, and other technologies (nickel cadmium, nickel metal hydride, zinc-carbon, etc.).

What are industrial batteries?

Industrial batteries are sources of electrical energy that are generated from electrochemical reactions. Industrial batteries are an important part of uninterrupted power supply (UPS) systems, which are widely used for stationary or mobile applications. The industrial battery market is segmented by technology, application, end-user, and geography.

Should battery companies invest in a breakthrough battery technology?

Nevertheless, the increasing focus on technologically advanced batteries by end users and manufacturers is likely to create a massive opportunity for battery companies to invest and redirect their resources toward making a breakthrough battery technology.
