

Japan's industrial and commercial energy storage prospects

What role does energy storage technology play in Japan's Energy Future?

Given the fundamental direction of Japan's energy landscape, energy storage technology is set to play an integral part in Japan's energy future due to energy storage technology's role in both smart grid technology and in renewable energy's integration into Japan's energy landscape.

Does Japan need energy storage infrastructure?

The plan also calls for the widespread promotion of energy efficient management systems (EMS) in Japan. At the national level, and in a long-term strategic sense, this context has given rise to the structural demand for energy storage infrastructure on Japan's energy market.

What is the future of energy storage in Japan?

Other small-scale uses, such as data center backup energy storage are projected by NEDO to become commercially widespread in Japan before 2020. Overall, large and centralized storage technologies have been mature for a longer period of time. In Japan and in the EU, research and development efforts are heavily focusing on batteries.

What is Japan's energy storage landscape?

Japan's energy storage landscape is widely distributed across the whole of Japan, geographically-speaking. Furthermore, Japan's energy-storage landscape is characterized by its connection with Japan's smart-grid and smart city landscape. a. Interactive Map of Japan's Energy Storage Landscape

How big is Japan's battery market?

According to National Policy Unit estimates, Japan's total storage battery market size is $\$165.930$ Billion (according to 2011 figures).⁹⁰ In terms of energy storage usage, Japan's battery-based energy storage market is growing aggressively.

What incentives are available for energy storage in Japan?

Economic incentives for energy storage on the Japanese market are established by Japan's Feed-in-tariff scheme.¹²⁹ Furthermore, 2012-2013 saw the launch of numerous, high-budget energy storage subsidies on the Japanese market, as outlined in previous chapters of this research. iv. Industry Acceptance
