

Kiribati independent energy storage project public list

What is Kiribati integrated energy roadmap?

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati's entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government's largest expenditures.

Does Kiribati need electricity?

As a small, remote island state, Kiribati is highly dependent on imported energy supply. Electricity is one of the government's largest expenditures. Yet the current fossil fuel-based power system is inadequate to meet future demand.

When was the Mise project launched in Kiribati?

The project was officially launched on 28 January 2021 with an Inception workshop at the Ministry of Infrastructure and Sustainable Energy (MISE) Boardroom in Betio, South Tarawa in the Republic of Kiribati.

Who can I contact if I need a press interview in Kiribati?
