

Malabo energy storage container fire fighting system

Are lithium-ion battery energy storage systems fire safe?

With the advantages of high energy density, short response time and low economic cost, utility-scale lithium-ion battery energy storage systems are built and installed around the world. However, due to the thermal runaway characteristics of lithium-ion batteries, much more attention is attracted to the fire safety of battery energy storage systems.

What is the Viking 52 hydropen container firefighting system?

Bernhard Schulte(BS) decided to provide all their container ships with the Viking 52 HydroPen container firefighting system. Larger ships will receive two such systems while small ships will receive one. The main objective is to improve the ships' ability to fight container fires, both at source and at height.

Does a containership have a fire control upgrade?

NOTE: Class ABS, NKK and DNV have produced upgraded and optional Class rules and notations for containership voluntary fire control enhancement. As an example, the Class ABS webpage Firefighting on Containerships explains the upgrading and the Class notations available.

Should you upgrade your container firefighting equipment?

Regardless of containership 'built age', upgrade your fleet's container firefighting equipment to not less than the SOLAS Chap. II-2, Reg. 10, requirements for the provision of a self-penetrating water mist lance and mobile water monitors.

Are shipboard container cargo fires a hazard?

Shipboard container cargo fires with severe losses are regrettably common. The first line of defence (as discussed in Risk Bulletin No 86) must always be pro-active fire risk identification and avoidance. This Risk Bulletin focuses on the second and third lines of defence of fire detection and firefighting.

What happens if an energy storage station fires?

Since a large amount of energy is stored in the energy storage station in the form of chemical energy, once this energy is released in the form of heat and fire, it will cause serious damage. For example, in 2024, three LFP battery energy storage station fire accidents occurred in Germany within three months .
