Why should you rent a battery energy storage system?

Battery energy storage system rentals provide reliable, efficient power with low emissions. They can help reduce your company's carbon footprint while effectively charging a variety of tools and equipment. Our fleet of energy storage solutions operate at high efficiency, allowing you to get more power out of every drop of fuel.

Why is mobile energy storage a stranded asset?

Stationary storage lacks flexibility, suffers from low utilization and from the risk of becoming a stranded asset. Power Edison addressed these issues by developing mobile energy storage platforms: TerraCharge(TM) and AquaCharge(TM) for mobile land-based and water-based mobile energy storage respectively.

How many battery storage projects does power Edison have?

Power Edison has a development and sales pipeline of over 1GWh of battery storage projects. Power Edison, the leading developer and provider of utility-scale mobile energy storage solutions, has been contracted by a major U.S. utility to deliver the system this year.

What is a power Edison mobile ESS?

Power Edison mobile systems are designed - from the ground up - to be modular, robust, reliable, flexible and cost-effective electrical capacity resources that can provide a wide spectrum of electricity-related services and benefits. To add even more flexibility, Power Edison mobile ESS's can be purchased, rented or leased.

What is a battery energy storage system?

Our fleet of battery energy storage systems (BESS) for rent are designed to store and provide power when you need it most on the jobsite. When you require an industrial energy solution for your construction site, plant or event, these energy storage systems provide silent, efficient temporary power at several different outputs.

Can a power Edison mobile ESS be purchased or leased?

To add even more flexibility, Power Edison mobile ESS's can be purchased, rented or leased. Power Edison's comprehensive offerings include regulatory policy support, grid analytics, customized engineering designs, project finance and operations and maintenance.
