

New market laos energy storage frequency regulation

Who collects energy supply and demand data in Lao PDR?

Under the energy statistics regulation, the Department of Planning and Cooperation (DPC) of MEM will collect energy supply and demand data from energy market players in the Lao PDR on a mandatory basis.

What is the purpose of the Lao PDR's Energy Statistics Regulation?

The preparation of the Lao PDR's energy statistics regulation is consistent with the objective of the Ministry of Energy and Mines (MEM) to enhance energy data and statistics to support policy planning and actions for the energy-related sectors.

Will energy demand rebound in Lao PDR?

Energy demand is also expected to bounce back to support economic growth in the foreseeable future. Fortunately, the Lao PDR largely relies on hydropower for its energy source. As the country continues to rely on electricity export, hydropower and renewable energy will play a crucial role in energy sustainability.

How is electricity sold in Lao PDR?

The business of selling electricity in Lao PDR is regulated by the Electricity Law, with one state-owned company - EDL - selling domestic electricity. EDL procures the electricity that it sells from IPPs and EDL-Gen, the domestic power producers.

Will Lao increase the share of renewables in the energy mix?

The Lao government has set ambitious targets for renewable energy development, aiming to increase the share of renewables in the country's energy mix to 30% by 2025.

How can Lao PDR improve regional energy security?

Opportunities exist in Lao PDR to enhance regional energy security through deep integration with neighbouring countries' power grids through the transmission network of the Association of Southeast Asian Nations (ASEAN). 2.2.
