Can I buy a Tesla Powerwall battery?

Major investment: Previously, you could purchase Tesla Powerwall batteries individually. Now, you have to purchase them as an add-on to a major Tesla solar installation, either solar panels or a solar roof. You may be able to buy a Powerwall from a certified Tesla installer, but wait times can be multiple years.

What is a Tesla Powerwall solar battery?

A Tesla Powerwall solar battery, like any other solar energy storage system, can keep your essential systems online during grid outages, help maximize your net metering savings or even be your primary source of power if you have an off-grid setup. Considering Solar Panels?

Does Tesla offer free solar panels?

During that time, Tesla has offered a handful of leasing, renting, and financing options to reduce the solar panel cost barrier and increase adoption of its home solar and battery systems. Somewhere along the way, rumors sprung up that the company was offering free solar panels.

Can you buy a PowerWall with a Tesla Solar System?

You can purchase a Powerwall in combination with a Tesla solar system or Tesla solar roof. You can buy a maximum of 10 Powerwalls per purchase, and the cost per unit decreases when you purchase more batteries. Most homes need only one or two batteries to meet their basic energy storage needs.

Is Tesla a good choice for rooftop solar?

With a mission to "accelerate the world's transition to sustainable energy," Tesla has been a major player in the rooftop solar industry since 2016. During that time, Tesla has offered a handful of leasing, renting, and financing options to reduce the solar panel cost barrier and increase adoption of its home solar and battery systems.

How much does a Tesla Powerwall cost?

The Tesla Powerwall 3 costs about \$15,400 before incentives and taxes are considered. At \$1,140 per kWh of storage, the Powerwall is one of the most affordable home battery solutions available. The combination of its cost and popularity earned it the first place spot in our list of the Best Solar Batteries of 2025.
