

# Office building energy storage supplier quotation in China 2030

China also achieved its 2030 wind and solar capacity target in 2024, six years ahead of schedule. While renewable installations are set to continue, investment growth is expected to slow in 2025 and, in the case of solar PV, even to fall ...

2024 was a year of accelerated energy transformation in China. For the first time, installed capacity of renewable energy exceeded that of thermal power, accounting for 56% of the total installed capacity. The installed capacity ...
