

Office building energy storage tender price in India 2025

Why are energy storage tenders growing in demand?

Standalone energy storage tenders have grown in demand, with 10% of total capacity awarded in Q1 compared to a 2%- 4% share in 2023 and 2024. The share of tenders with storage is expected to continue to rise sustainably, driven by the need to address the intermittency issue of solar and wind.

How many renewable projects will India tender in 2024?

To reach this target, India plans to tender about 50 GW of renewable capacity annually through a competitive bidding mechanism. In 2024, India overachieved this target by awarding more than 60 GW renewable projects. Tender volumes fell by 70% in the January-March quarter this year compared to the same period in 2024.

What is the growth trend of Bess tenders in 2022 - 2025?

Standalone BESS Tenders Growth Trend |2022 - 2025 The Stationary storage market has seen a huge turnaround with the decreasing cost of batteries over the last 2 years. The approval of viability gap funding for the sector has further accelerated tendering activities by various central and state nodal agencies.

"Union Budget 2025 focuses on long-term energy security with plans to increase nuclear capacity to 100 GW by 2047, further diversifying India's energy mix. However, the journey from 8.2 GW today to 100 GW in 22 years will require a ...
