

Photovoltaic power generation and energy storage along the dniester river

The Dniester Pumped Storage Power Station is a pumped storage hydroelectric scheme that uses the Dniester River 8 kilometres (5.0 mi) northeast of Sokyriany in Chernivtsi Oblast, Ukraine. Currently, four of seven 324-megawatt (434,000 hp) generators are operational and when complete in 2028, the power station will have an installed capacity of 2,268 megawatts (3,041,000 hp).
