

Can Poland create a broad energy storage industry?

The new rules create an opportunity for Poland to create a broad energy storage industry, PSME's president said, from the development of technologies and products to the creation of jobs. In the main power market auction in 2022, battery energy storage was contracted for the first time - 165 MW to be exact.

What is Polish Energy Storage Association?

Polish Energy Storage Association - together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Does Poland need a photovoltaic strategy?

Poland needs a photovoltaic strategy as the flagship element of the currently updated Polish energy policy and Polish industrial policy, a strategy understood as a real program to face the challenges.

How much did Polish energy network invest in 2021?

Polish Energy Network (PSE) spent \$250 million on investments in 2021. The company's most important investments are two 400 kV lines under construction: Plewiska-Pila Krzewina-Zydowo Kierzkowo and Krajnik-Morzyczyn and Morzyczyn-Dunowo. PSE completed the construction of the 220 kV Glinki-Recław line and the Reclaw substation in 2021.

What is Poland's energy policy until 2040?

Adopted in February 2021, "The Energy Policy until 2040" (PEP2040) assumes that Poland will gradually reduce its use of coal, on which it is 70 percent reliant upon. By 2030, Poland's energy mix is to decrease to at least 56 percent reliance on coal. The share of renewable energy sources is to increase to no less than 23 percent by that time.

Does Poland have a green energy auction system?

In 2015, the Polish government passed the Renewable Energy Act, which introduced an auction system for renewable energy producers and developers replacing the system of green certificates. Each November, the President of the Energy Regulatory Office announces the volume and planned value of green energy procurement.
