

# Polansa liquid flow energy storage power station

What is Dalian flow battery power station?

The Dalian Flow Battery Power Station project was approved by the Chinese Energy Administration in 2016. This is the first national, large-scale, chemical energy storage demonstration project approved so far. It will eventually produce 200 megawatts (MW)/800 megawatt-hour (MWh) of electricity.

Who makes Dalian constant current energy storage power station?

The power station is constructed and operated by Dalian Constant Current Energy Storage Power Station Co., Ltd. and the battery system is designed and manufactured by Dalian Rongke Energy Storage Technology Development Co., Ltd.

What will Dalian's new power system do?

It will play a key role in "peak cutting and valley filling" across the main power system. This will help Dalian make use of renewable energy, such as wind and solar energy.
