

Portable ESS system project financing options in Greece 2030

Will energy storage help Greece achieve its energy transition goals?

1. In the coming years,energy storage is expected to play a key rolein Greece's efforts to achieve its ambitious energy transition goals. This is highlighted by the target set in the country's National Plan for Energy and Climate,for the installation of eight gigawatts of energy storage capacity within the next ten years.

Can ESS project operators participate in an auction?

In order to be eligible to participate in an auction,ESS project operators should not have begun their construction prior to the submission of their offers,while for participants in the first auction,it is also stipulated that they must be endowed with a valid energy storage license.

What is the storage capacity requirement for ESS projects?

Exceptionally,in the context of the third auction and for ESS projects with a maximum total capacity of 50 MW,this storage capacity requirement is limited to 250 MWh,provided that the storage technology used is new and durable.
