

Sa government solar battery scheme

What is the SA solar battery rebate?

Initially launched in 2018, the SA Solar Battery Scheme was designed to give all grid-connected households access to an upfront rebate and low-interest loans for batteries. Who is eligible for the SA Solar Battery Rebate? How much does the South Australia rebate cover? Initially the scheme offered a higher rebate, but currently the scheme offers:

How much does a solar home battery subsidy cost in South Australia?

The subsidy or rebate reduces the purchase cost by up to \$3,000, depending on the battery capacity. The South Australian government intends to make solar home battery systems affordable with this scheme. The subsidy targets a minimum of 40,000 households in South Australia.

How much does the SA Home battery scheme cost?

At the time, the SA Home Battery Scheme was the largest in history of its kind anywhere in the country. In early 2020, new subsidy levels and caps were introduced. The Home Battery Scheme was lowered to \$300 per kWh up to \$4,000 per installation.

Did the SA Home battery program work?

Subsidy positions elapsed in their entirety mid-2023 when the new-Labor Government abolished the SA Home Battery program. Pending installations were required to be completed in December, 2023. So did it work? Well, that depends who you ask.

How much will SA's \$100 million battery subsidy scheme cost?

The \$100 million scheme will provide subsidies of up to \$3,000 for SA homeowners or renters (with permission) to install batteries.

How much does a solar battery cost?

Under the federal Small-scale Renewable Energy Scheme, you'll earn STCs when installing a new solar battery system. Each STC has a market value -- usually between \$30 and \$40 -- and depending on your system and location, this could mean thousands in upfront discounts.
