

Shuangliang group energy storage equipment factory operation

Will shuangliang provide electrolyser units?

Announced in December 2024, Shuangliang Group was the first successful bidder to provide electrolyser units. The pair had been working together since December 2022, and Shuangliang will provide multiple alkaline units for the project. Shuangliang's product range now includes the 5,000 Nm³/h SLZQ-5000.

When did shuangliang start a hydrogen production system?

Relying on more than 40 years of mechanical manufacturing experience, Shuangliang started hydrogen production system research since 2015. In Sep 2022, Shuangliang launched 1st unit 1000NM³/h AWE electrolysis stack and BOP system.

What is shuangliang large size hydrogen production system?

With its innovative design in safety, longevity, and efficiency, Shuangliang large size hydrogen production system can excellently serve the hydrogen demand in different industries, such as chemical, transportation, refinery, and metallurgy, etc. Currently the most applied industry for green hydrogen.

When did shuangliang introduce a new generation electrolyzer?

In Sep 2022, Shuangliang launched 1st unit 1000NM³/h AWE electrolysis stack and BOP system. In Oct 2023, Shuangliang released new generation 10MW electrolyzer with world leading performance figures in the industry. More adaptable to renewable power.
