

Solar battery and panels

Solar panels are used to power everything from calculators to sports stadiums to satellites -- and they can just as easily be used to power a home. You don't need to be a rocket scientist - or anything close to it - to get solar panels for your ...

When paired with solar panels, a battery could keep them running indefinitely without the utility. Batteries can also be helpful in areas where solar buyback rates are low, net metering is not available, or utilities require time of use rates.
