

Solar battery scams

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

What are the most common solar panel scams?

Here are some common solar panel scams to look out for. Fake solar companies: Perhaps one of the most common solar scams involves creating a fake company and "selling" solar panel systems without any intention of ever installing them. These fake companies may request a large upfront deposit and then disappear before ever completing any work.

How do I avoid solar panel scams?

To avoid solar panel scams, we strongly recommend doing your own research and verifying that your solar company is legitimate before signing any contracts. Take time to make the right decision: Never rush into a contract.

Is residential solar a scam?

When done right, going solar can substantially reduce your carbon footprint and your energy costs. However, this rare double-whammy of benefits also makes the residential solar industry ripe for scams.

Are solar panels a 'you'll never pay another electricity bill' scam?

The 'You'll Never Pay Another Electric Bill' Lie Scammers exaggerate the financial benefits of going solar, claiming that you'll never pay another electricity bill again. While solar panels can significantly reduce the energy costs for your household, they may not eliminate your electricity bill for good.

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency.

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming ...
