

## Solar ceiling fan with battery

It is a day & night running dc ceiling fan, designed with hybrid power supply modes. Powered by solar panel and storage battery / grid power, it realizes energy savings of up to 90%, coming as an energy efficient green cool fan, ...

With over 10 years of experience in the solar appliances field, our business has been growing consistently year by year. In January 2019, we moved to a new office building with double the production capacity of their previous facility.
