

# Solar fence charger replacement battery

What is the best solar electric fence charger?

. Gallagher S40 Solar Electric Fence Charger | Powers Up To 25 Mile / 80 Acres of Fence | Low Impedance, 0.4 Stored Joule Energizer | Unique Battery Saving Technology | Solar Battery & Leadsets Included . . . .

Where should a solar-powered electric fence charger be placed?

Since solar-powered electric fence chargers receive direct sunlight via solar panels, it is important to position the charger in a place where it receives maximum sunlight- this means you need to avoid placing the device close to trees or other shady areas.

Should you install a solar-powered electric fence charger?

In some areas or regions where there is no availability of AC power, a solar-powered electric fence charger can really be beneficial. If you opt to install such a charger, you will save yourself from the installation of an AC power unit - which indeed will cost you a lot of money.

Can I use a Zareba battery with a solar fence charger?

Learn More The Zareba® Solar Battery is to be used with solar fence chargers SB1R, LIS10B, SP10B, and ESP10M. Battery type: 6 volt gel cell, 10 amp hour lead-acid battery. Zareba® joins Fi-Shock® and Electrobraid® to form the largest manufacturer of electric fence systems in North America.
