

Solar fountains with battery backup

The solar technology with battery backup allows the fountain to run in and out of the sun. SOLAR POWERED: Direct sunlight is needed to charge the solar panel, but the battery can keep the pump running when the clouds come out. To run on battery mode simply press the Battery On/Off button.

Equipped with a solar panel and a rechargeable battery pack, this outdoor waterfall fountain operates efficiently in direct sunlight. The battery provides up to four hours of backup power, ensuring continuous flow even when the sun fades.
