

Solar light batteries wilko

Do solar garden lights work with rechargeable batteries?

Solar lights are designed to work with special rechargeable batteries for maximum effectiveness. Our garden lights work with NiMH, NiCad, Li-ion, and LiFePO4 batteries. Illuminate your nights with our solar garden lights collection. Discover the brilliance of outdoor solar lights designed to enhance your garden's charm.

What types of batteries are available at Energizer & Wilko?

Keep all your devices powered, no matter how big or small, with our huge choice of batteries. Whether you're after single-use batteries or rechargeable batteries, you'll find Energizer, Duracell and Wilko branded options in every size here from C batteries to AAA rechargeable batteries.

What are solar string lights?

String lights powered by solar energy are a popular go-to for creating a festival vibe or transforming an ordinary tree or bench into a glowing spectacle. We have solar string lights that change colour by the simple click of a button, and options with generous cable lengths if you want to cover a larger area.

Light up your space with the Wilko Flame and Crackle Glass Ball Solar Stake Light. Depending on what you need, the solar-powered outdoor garden stake light is ideal for driveway lighting, garden aesthetics, and a variety of other uses.

This attractive IP44-rated energy-saving LED Solar light uses the attached solar panel to recharge the AA batteries throughout daylight hours using free energy from the sun. Once charged, it will provide up to six hours of light. When dusk ...
