

Solar panels and battery package victoria

How can Victorians save money on solar panels?

Through solar battery rebates and loans, more than 20,000 solar battery systems have been installed across Victoria. The Government has helped Victorian families slash \$1 billion off the installation of solar panels, energy efficient heat pumps and batteries - saving hundreds of millions off Victorian energy bill.

Why should you choose a solar battery installation Melbourne?

With batteries, you can use your own stored sunshine instead of relying on the electricity grid. We Have the Perfect Solar Battery Installation Melbourne! From your initial consultation to the final panel click, our experts will guide you every step of the way, ensuring a system perfectly tailored to your needs.
