

Solar panels battery quote

What should a rooftop solar quote include?

The main components of a rooftop solar installation are the solar panels, inverters, and batteries. A solar quote should, at minimum, include the brand name and model number for each component and information about the warranty coverage offered for these components. Here's some more information on what to look for:

How do I choose the best solar battery?

The make and model of a battery should be included in the quote, so look for customer reviews of the brand to find the best solar battery for you. Of course, you'll also want one that suits your storage needs. Once information about the equipment is out of the way, a quote should include how the system is expected to work over time.

How much does a solar battery cost?

Historically, solar batteries have had a reputation for being prohibitively expensive, with many recorded instances where adding storage doubled the cost of a home solar installation. You can expect to pay between \$7,000 and \$18,000 for a solar battery.

Are solar batteries a good option for your home?

About half of all residential installers install both types, and the quote they give you will include the option they feel is best suited for your home. Solar batteries are an optional addition to a solar installation. According to our solar industry survey, 28% of all new solar installations include energy storage.

How do I get a solar quote?

Get accurate technical specifications and request a quote for each product. Get competitive quotes from trusted local and national solar companies. SolarCompare is an online platform helping homeowners purchase solar power, compare solar panels, and choose vetted installers.

How do I compare solar quotes?

Comparing solar quotes isn't as simple as finding the company that offers the lowest price or the best equipment. If you've gotten solar quotes, it's totally natural to be overwhelmed by what you're looking at. Here are the important things to look at when you consider each quote:
