

Solar with battery EPC turnkey quotation per 5MW 2025

What is a complete EPC for 5 MW solar farm power plant?

It is our pleasure to submit this proposal for the complete EPC for 5 MW solar farm power plant. Plant will consist mainly of solar panels and a number of electric equipments for voltage conversion to make suitable for national grid distribution. The estimated required area for the plant is 80,000 to 90,000 m².

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

What is the scope of supply for a 5 MW solar plant?

The estimated required area for the plant is 80,000 to 90,000 m². The scope of supply will be the complete supply of solar panels and equipments for 5 MW power generation. Complete supply of solar panels and equipments for 5 MW power generation. Installation of all panels and equipments at site.

What happens if the EPC contract is uncertain?

Any uncertainty in the EPC Contract may unfortunately see the Contractor liaising directly with these third parties and possibly risking the relationship of the Project Company with key influencers, customers and long-term neighbours.

What is the scope of supply for 5 MW power generation?

The scope of supply will be the complete supply of solar panels and equipments for 5 MW power generation. Complete supply of solar panels and equipments for 5 MW power generation. Installation of all panels and equipments at site. The period for completion of the plant shall be 12 months.

In today's world of big industrial and infrastructure projects like solar farms, water plants, or even oil processing centers, you often hear about "EPC turnkey projects in India." Rather than coordinating with separate designers, suppliers, and ...
