

Successful bid price of home energy storage project in Sweden 2026

Is the home storage market growing in Europe?

The market for home storage is growing at a record pace across Europe. For example, in its latest market study for residential energy storage, SolarPower Europe calculates an increase in storage capacity of 71% (3.9 GWh) in the most likely scenario for the past year.

How do infra funds help wind and solar projects in Sweden?

Infra funds like GreenVoltis play a key role in providing structured financing to improve project bankability and long-term profitability. An increasing number of wind and solar developers in Sweden are expanding into BESS project development, but grid constraints remain a significant hurdle. Limited grid connection capacity is slowing deployment.

Which European residential storage market has the highest growth rate?

Switzerland is in fifth place with 3%. Together, these five countries cover 88% of the European residential storage market. However, all the other markets considered also grew by an impressive 137% on average. The strongest growth in this group is shown by Poland and Sweden, which could take 3rd and 4th place in Europe by 2026.

Which European country has the best home storage market in 2021?

In the European country ranking of residential storage markets, Germany once again held the undisputed top position in 2021 with a market share of 59%. In a forecast up to 2026, SolarPower Europe expects Germany to remain the undisputed market leader in home storage during this period.

How much storage capacity will Europe have by 2026?

By the end of 2026, the European industry association even expects total storage capacity to increase by 300% to 32.2 GWh, equivalent to 3.9 million European households optimizing the self-sufficiency of their power supply and limiting their electricity costs.

Which European storage countries have a good market share in 2021?

Thanks to the extremely successful "Superbonus 110" subsidy program, Italy was able to secure second place among European storage nations in 2021 with a market share of 14%. Austria is in third place with 6%. The UK has dropped one place to 4th place, also with 6%. Switzerland is in fifth place with 3%.

Polish utility PGE Group is planning to add more than 80 energy storage facilities through to 2035 to the tune of PLN 18 billion (\$4.7 billion). One of these will be the 981 MWh Zarnowiec battery energy storage project, which will ...
