

Successful bid price of lithium solar battery project in Spain 2026

Spanish solar auction prices have been quoted as a signal of how cheap solar energy has become. CRU's data suggest that those prices do not reflect current real costs but imply high future electricity prices driven by high carbon prices.

Joint venture to build an all-new lithium iron phosphate (LFP) battery plant at Stellantis' Zaragoza, Spain site. Production is planned to start by end of 2026 and could reach up to 50 GWh capacity. Stellantis is committed to ...
