

Successful bid price of residential ESS project in India 2030

What is the evolution of utility scale ESS tenders in India?

The evolution of Utility Scale ESS tenders in India highlights the increasing focus and efforts of all stakeholders. In the past five years, the ESS tenders have been evolving with innovative and new age tenders such as RTC, Peak Power and now standalone ESS.

Which ESS tenders will increase Indian ESS capacity manifold?

The latest ESS tenders issued by Solar Energy Corporation of India (SECI) and NTPC are the first in India to combine standalone ESS with on-demand use. These two standalone ESS tenders, by SECI and NTPC, have a cumulative storage capacity of 1 GW or 4 GWh. Thus, if executed well, these projects will augment Indian ESS capacity manifold.

Are ESS tenders a catalyst for the Indian ESS market?

In the past five years, the ESS tenders have been evolving with innovative and new age tenders such as RTC, Peak Power and now standalone ESS. Current standalone ESS tenders, being the first large-scale tenders of such kind, can be a catalyst for the entire Indian ESS market.

What is the largest utility-scale ESS tender in India?

The largest utility-scale ESS tender in India issued to date. Cumulative Capacity: 500MW/3,000 MWh (6-hour solution). Current Status: After multiple date extensions, NTPC has scheduled the bidding for June 30, 2022. These tenders incorporate the learnings developed during past ESS tenders.

How much energy will India need by 2030?

The Central Electricity Authority estimates India will need about 42GW of BESS and 19GW of pumped hydro storage (PHS) capacity by 2030. Large, grid-scale ESS projects will be crucial in meeting these future energy needs. To this end, the latest demand-driven Firm and Dispatchable Renewable Energy (FDRE) tenders offer the ideal model for India.

Is ESS Technology still nascent in India?

However, at present, ESS technology is still nascent in India, because of which these standalone ESS tenders will likely face technical, procurement, and regulatory challenges. For example, the NTPC tender requires a 6-hour ESS solution.
