

Successful bid price of wind solar storage project in Romania 2025

Are wind and solar power projects eligible for subsidies in Romania?

Wind and solar power projects with a combined capacity over 1.5 GW in Romania are eligible for subsidies under a contract-for-difference (CfD) scheme. The first round of auctions resulted with ten and eleven winning bids, respectively.

How much does wind power cost in Romania?

The weighted average of accepted wind power prices is EUR 65 per MWh, compared to EUR 51 per MWh for photovoltaics. Officials in Romania are hoping that the EUR 3 billion approved from the European Union's Modernisation Fund will cover the costs of the new 15-year CfD mechanism for solar and wind power.

Are wind and solar power projects eligible for contracts for Difference (CfD)?

Be the first one to comment on this article. Wind and solar power projects in Romania of over 1.5 GW in total are eligible for contracts for difference (CfD) after the first auctions.

Will the European Union modernisation Fund cover solar and wind power costs?

Officials in Romania are hoping that the EUR 3 billion approved from the European Union's Modernisation Fund will cover the costs of the new 15-year CfD mechanism for solar and wind power. Still, consumers will need to bear administrative and electricity transmission expenses.

In 2024, Romania organized its first CfD tender for 1,5 GW, out of which 1 GW for wind projects and 500 MW for solar. In terms of participation, close to 50 companies took part in the process, with 21 being declared winners, with ...
