

# Sweden mobile energy storage program public announcement

How many battery energy storage systems are there in Sweden?

Energy storage sector players Ingrid Capacity and BW ESS have formally inaugurated on Monday a portfolio of 14 battery energy storage systems (BESS) across Sweden with a combined capacity of 211 MW/211 MWh. Battery energy storage system (BESS). Image source: Ingrid Capacity.

Why should you invest in energy storage systems in Sweden?

Our energy storage systems are engineered to ensure high system efficiency and availability for grid services and electricity trading. We aim to deploy over 200MWh of storage capacity in Sweden soon, laying the foundation for further investment and partnerships.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW /211 MWh into the region.

What does the new Swedish Energy Agency do?

The aim is to deepen cooperation in research and innovation, market Sweden as a test bed and attract investments to strengthen Sweden's competitiveness. The government has appointed Caroline Asserup as the new Director General of the Swedish Energy Agency.

When is the Swedish electricity storage & balancing centre conference?

The conference will be held at Hotell Botanika in Uppsala on 15-16 October and will contain presentations from international scientific advisors, companies and researchers, poster presentations, mingling and group discussions. This is the official website of Swedish Electricity Storage and Balancing Centre.

What is the largest energy storage investment in the Nordics?

"It is a great honor to inaugurate the largest energy storage investment in the Nordics, with 211 MW now connected to the power grid. "Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling increased power production."
