

Total investment cost of on grid solar storage project in Mauritius

Who installed the solar PV farm in Mauritius?

Siemens France installed the solar PV farm in Mauritius. The finance minister also announced plans to increase the capacity of the solar PV farm at Henrietta from 2 MW to 10 MW; the CEB subsequently launched a tender for an 8MW ac solar PV farm project valued at \$8 million.

Does Qair Group operate solar energy farms in Mauritius?

Qair Group already operates three solar PV and wind energy farms in Mauritius with a combined capacity of 35 MW. The group founded by Jean-Marc Bouchet has a combined renewable energy capacity of 860 MW operational in Africa, South-East Asia, South America, and Europe.

How much does Qair's solar project cost?

The total investment costs of the projects are estimated at more than 7 billion Mauritian rupees (~ \$150 million). Qair will develop two solar power plants, the SS1 and SS2, in Trou d'Eau Douce, located in the Flacq district. The SS3 solar farm park will be built in Balaclava in the Pamplemousses district.

What is Qair doing with stor'sun solar projects?

Through the Stor'Sun solar projects, Qair is thus contributing to the Mauritian government's strategy of decarbonization and diversification of the electricity mix, aiming for the production of 60% of electricity from renewable sources by 2030.
