

Could long duration electricity storage be the UK's first energy storage facility?

This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's energy security. These technologies work like giant batteries by storing renewable energy and releasing it onto the grid and into homes when needed.

Could a new energy storage scheme help the UK achieve energy independence?

The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure. This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's energy security.

Does Britain have a battery energy storage system?

The UK government has included a fivefold increase in Great Britain's battery energy storage system (BESS) fleet in its plan to achieve clean power generation by 2030.

What if the UK has a strong energy storage industry?

If the UK establishes a strong domestic energy storage industry, it can export storage capacity and technologies. Storage would reduce the UK's dependence on costly, polluting and uncertain fossil fuel imports. Great Britain currently has 2.8 gigawatts (GW) of LDES across four Pumped Storage Hydro (PSH) facilities in Scotland and Wales.

Who are the UK energy storage companies?

Pulse Clean Energy, Zenobe, Invinity Energy Systems, Greenvolt Group and Eku Energy feature in this week's roundup of UK energy storage news. When operational, Evero InBECCS will process 170,000 tonnes of domestic waste wood and remove 217,000 tonnes of CO<sub>2</sub> per year.

Is the UK ready for a new pumped storage hydropower facility?

"This is a historic moment for the UK's energy system. We've not built a new Pumped Storage Hydropower (PSH) facility in nearly 50 years, but with over 10GW and 200GWh of shovel-ready projects, the Hydropower sector stands ready to deliver.
