

Utility scale ESS supplier quotation in Malaysia 2026

Why is Malaysia launching a Bess project?

The inaugural development of public BESS project in Malaysia is part of the Government's efforts to support the energy transition and achieve the goals of increasing the country's installed renewable energy capacity to 70% and to achieve net-zero by 2050.

What is the capacity of EC's Bess project?

The total capacity to be acquired is 400MW/1,600MWh. In this regard, EC invites companies or consortiums that are experienced in implementing projects related to energy generation, and have the technical and financial capabilities to develop, finance, and operate energy storage systems to participate in the BESS project. RFQ Documents

Should foreign players participate in Bess projects in Malaysia?

Nevertheless, given that the development of BESS projects in Malaysia is still at an early stage, participation of foreign players with experiences in energy storage system projects may be crucial to support and encourage further projects of the same nature to be developed in the Malaysia energy market in the future.
