

Vinfast solid state battery

Does VinFast have a solid-state battery?

Vietnamese EV automaker VinFast is continuing its lightning-fast growth and expansion by announcing a long-term, strategic partnership with solid-state battery manufacturer ProLogium. Following a signed Memorandum of Understanding, ProLogium will provide solid-state battery cells to VinFast vehicles beginning in 2024.

Will VinFast launch EV batteries in 2024?

Vietnamese automaker VinFast has signed a deal with Taiwanese solid-state battery maker ProLogium to secure EV batteries starting from 2024. VinFast expects to launch its first EVs in the U.S. this year.

Will prologium provide solid-state battery cells to Vinfast?

Under the strategic cooperation arrangements, ProLogium plans to provide solid-state battery cells to VinFast starting from 2024 to support its next generation line-up.

Will prologium and VinFast develop a solid-state battery factory in Vietnam?

In the future, ProLogium and VinFast may also establish a joint-venture solid-state battery factory in Vietnam. Solid-state batteries are among the most promising technologies to offer advantages in terms of safety, energy density, hyper fast-charging capability, recyclability, weight optimization, costs, and lifetime.

Is VinFast partnering with Taiwanese battery startup prologium technology?

Vietnamese automaker VinFast, which expects to launch two electric vehicles in the U.S. market this year, is partnering with Taiwanese battery startup ProLogium Technology on solid-state EV batteries for delivery as early as 2024, VinFast said in a statement.

What is VinFast doing with prologium?

VinFast also entered into a Memorandum of Understanding with ProLogium setting out strategic cooperation arrangements to secure next-generation solid-state battery supplies and support the goal of expanding its smart mobility solutions globally.
