

Wagan solar power battery charger

General What is the "power ecosystem"? The power ecosystem is the sum of all your electrical devices combined. Your car's electronics + all of the stuff you add (lights, refrigerator, power inverter, solar panel, extra ...

The Wagan 20 Watt solar power e-charger converts daylight (no direct sunlight needed) into usable electricity for charging 12V batteries. By preventing drain, battery life is often extended. The monocrystalline solar panel functions even ...
