

# What does energy storage 1 and energy storage 2 of die casting machine mean

What are the major energy requirements for die-casting operations?

The obvious major energy requirements are for melting and holding molten alloy in preparation for casting. The proper selection and maintenance of melting and holding equipment are clearly important factors in minimizing energy consumption in die-casting operations .

What is Overall Equipment Effectiveness (OEE) of die casting unit?

Overall equipment effectiveness (OEE) of die casting unit is the main indicator used in equipment management and energy efficiency evaluation and reflects the overall efficiency of equipment as well as the proportion of time or energy available to create value.

What is energy consumption of die casting unit in power off and standby States?

The energy consumption of die casting unit in the power off and standby states are denoted  $E_{po}$  and  $E_{sb}$ , respectively. The energy utilization ratio of the die casting unit  $u_u$  and the energy consumption in the standby and power off states can be expressed as.

How to reduce energy consumption in die-casting operations?

The proper selection and maintenance of melting and holding equipment are clearly important factors in minimizing energy consumption in die-casting operations . In addition to energy consumption, furnace selection also influences metal loss due to oxidation, metal quality, and maintenance requirements.

How much power does a die casting unit have?

At the same time, the power of the die casting unit is 20 kW and the power factor, which is the ratio of active power to apparent power obtained from the power quality analyzer, is approximately 0.3.

Is die casting energy efficient?

Discussions Die casting is an energy-intensive process that has prompted energy efficiency evaluation toward achieving greener, more sustainable manufacturing processes. However, the complex production conditions require even higher real-time and dynamic performance of energy efficiency evaluation.
