What is a solar battery used for?

These batteries are ideal for solar energy storage, off-grid power systems, and inverter backup setups. Designed for performance, durability, and safety, our batteries are perfect for homes, farms, and businesses across South Africa.

Where can I buy a solar battery?

Enjoy reliable power in your home or office with solar batteries from Sustainable.co.za. Browse our products & competitive prices online or contact us about your solar battery requirements.

Which solar battery pack is best for your South African home?

Some customers opt to install chinese 10 kWh lifepo4 solar battery packs, which strike a good balance between size and affordability for most mid-sized South African homes. These setups are based on typical usage and assume a focus on essential circuits. They can be scaled further if you want to go fully off-grid or add solar panels later.

What is a good battery system for South Africa?

For typical South African households dealing with unpredictable power supply, a battery system between 5 kWh and 10 kWh usually meets the essential load demand. This range is ideal for backing up lighting, electronics, and refrigeration during power cuts, while also reducing long-term electricity costs.
