

Wholesale rooftop solar storage price list in Italy

What is the market share of solar energy in Italy?

The solar rooftop segment continues to dominate the Italian solar energy market, holding approximately 63% market share in 2024. This significant market position is driven by several factors, including the country's robust residential and commercial adoption of solar PV systems.

How much does a rooftop solar system cost?

As the Ministry of New and Renewable Energy (MNRE) says, the average cost of a rooftop solar system connected with the grid is 75 per watt. Addressing this problem, the government has introduced a solution of subsidy schemes and other incentives that have encouraged people to transition to solar power for personal or commercial use.

How much do solar panels cost in Italy?

As of Apr 2023, the average cost of solar panels in Italy is \$2.73 per watt making a typical 6000 watt (6 kW) solar system \$11,472 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt.

Will SoliTek build a solar PV module factory in Italy?

March 2023: Solitek announced the construction of a solar PV module manufacturing factory in Italy with a 600 MW annual capacity. The company is expected to build its facility in the Benevento region with a EUR 50 million (USD 53.5 million) investment and come online in quarter two of 2024.
